As a family owned Business, we have always been able to deliver a strong result in the field, however we have always been confronted by the challenge of competing with our larger competitors in the area of reporting. I am delighted to advise that since we have adopted the Purveyance System, we are able to competitively compete in this area and in many cases we can now out perform our larger competitors.

The total package is amazing

- Our reporting is speedy effective and efficient
- We are able to supply information to our principles as they require it.
- The ability to convert the information to Excel makes the report accessible and easy to understand
- Our team of Merchandisers are time effective and Purveyance has reduced our paperwork to a minimum. It has given us instant communication with our team.
- De Data's service and trouble shooting team are helpful and efficient. They are prepared to spend time to ensure that the problems are discussed and fixed.

Gejay Agencies is now capable of meeting the needs of all our clients.

Thankyou to Frank De Palo and his team for understanding our needs and working with us to improve our Business.
